Subject: RE: River Road Annexation

Ok. I had the same reaction to SW in the past. However, I've seen a new direction from Don Rector. We should judge him on what he proposes to us and the developers in the near future.. I can back check some of the se complaints with Pataskala, Harrison and Etna Townships.

Our township needs to get ready for economic development by creating its own water and sewer capacity in whatever way makes sense. The viallge will not help us.
