Request from the website to: Ohio Job Ready Sites Program

From: Don Rector

Company name: Southwest Licking Community Water and Sewer

Phone number: 740-927-0410

Email: drector@swlcws.com

Comments/Questions: Regarding: 2008 Grant Application for Granville Science & Technology Complex. We believe that this site should be funded and should be considered a great site for a JRS development. Water and sewer services should be brought to this site without condition and without political issues attached. Southwest Licking has capacity and the desire to help make this site a great asset to the Licking County area. If you require additional information please call me at the number listed above or respond via email. Thank you for consideration of these comments.

You have received this email from the ODOD Contact US page. Please respond accordingly.
