Subject: Re: River Road Annexation

Sounds good. I discussed SW Water and Sewer with Alison Terry and she said it was a disaster in Pataskala. They put down under-sized pipes, their tap in fees were outrageous, their monthly fees were very high, and their debt assessments to customers were high. We need to look very hard to make sure this is not only what Tim and Jack want, but also what is best for Granville

Township.

Let me know when we can meet again.

Wes
