Subject: Owens Corning Presentation

The presentation for the \$5 million grant for Owens went of very well today. Jim Eckert from Owens and Phil Honsey from Poggemeyer did excellent jobs in their presentations. There are only 5 seeking grants and I think it's 6 that can be sent on to the state for their consideration. Therefore, we are almost assured to be sent to state for another presentation. A couple of the panel were township trustees (of course I don't know their names), but they told me we had the best presentation thus far. Sounds good.

Bill - the only thing I can think of for the next presentation is to come up with a number of possible employment positions that this development could provide. It would have to be well over 1000 and probably much higher than that.

It was a fun day, and I was happy to fill in for you, Bill. Hope you are having fun.

Wes
