Subject: Jones Tract Condo Development

Jim,

As per our phone conversation, the District has ample water and sewer capacity and to service the Jones tract development. Currently our water and sewer lines are approximately 1000' to the west of their parcel. This parcel is also outside of the District's current service boundary and we would need to get acceptance from the Granville Township Trustees in order to proceed. When appropriate I can meet with the Developer explore the options for line extensions to the property. If you have any questions please feel free to contact me.
